Abuse Victims* Marcia

Morgan 1995 The appropriate and sensitive use of anatomical dolls is one of the topics explored in this comprehensive introduction to the process of interviewing child sexual abuse victims. Co-creator of the dolls, Marcia Morgan, takes readers through an interview from beginning to end. She provides guidelines on how to create an environment intended both to minimize a child's trauma and to enhance the amount, quality and validity of information obtained. She examines problems practitioners might

encounter with young children and provides material on pre-interview preparation, training exercises and a listing of audio-visual resources.

Breaking the Cycle of
Abuse Beverly Engel
2015-10-23 "A beacon of
hope for women and men
who fear that they will
pass the abuse they have
suffered on to their
children, partners, or
employees. Humane and
compassionate but also
clear and down to earth,
this is a wonderful
contribution to the
literature on healing."
--Lundy Bancroft, author
of *When Dad Hurts Mom*
and *Why Does He Do That?*
"In this remarkably
powerful, wise, and
compassionate book,
Beverly Engel leads
readers step by step
through a program that
will help survivors of
emotional, physical, or
sexual abuse in
childhood to heal from
their wounds so they
don't need to re-enact
their abusive pasts. She

offers expert advice and
strategies to help
parents and would-be
parents avoid doing to
their children what was
done to them and helps
both abusers and victims
in emotionally and
physically abusive
relationships make
vitaly important
changes in their
relationships." --Susan
Forward, Ph.D., author
of *Toxic Parents* and
Emotional Blackmail If
you were emotionally,
physically, or sexually
abused as a child or
adolescent, or if you
experienced neglect or
abandonment, it isn't a
question of whether you
will continue the cycle
of abuse but rather a
question of how--whether
you will become an
abuser or continue to be
a victim. In this
breakthrough book,
Beverly Engel, a leading
expert on emotional and
sexual abuse, explains
how to stop the cycle of

abuse once and for all. Her step-by-step program provides the necessary skills for gaining control over emotions, changing negative attitudes, learning healthy ways of communicating, healing the damage from prior abuse, and seeking out support. Throughout, Engel shares many dramatic personal stories including her own experiences with abusive behavior. *Breaking the Cycle of Abuse* gives you the power to shatter abusive patterns for good and offers a legacy of hope and healing for you and your family.

Assessing Dangerousness

Jacquelyn C. Campbell
1995 Using a firm research and theoretical approach, this volume brings together experts

in the fields of health, mental health, and criminal justice to predict future violence. In language accessible to clinicians, *Assessing Dangerousness* discusses the prediction of homicide in spouse abuse, of child abuse using the Child Abuse Potential Inventory, of further violence by sexual offenders, and of further assault by batterers. The contributors, wellknown in their areas of expertise, discuss accurate measurement using tested instruments as well as the role of clinical observations. The introductory chapter presents the theoretical and clinical issues involved in predicting violence in general, and the final chapter summarizes the major points and presents the health and judicial implications of the findings. "Learning how

to predict violence is an important skill. This book is the equivalent of a university course on the subject." --Ron MacIssac, review in What's Happening, Victoria, B.C. "This text addresses one of the most difficult issues in the assessment and treatment of violent individuals--assessing their degree of dangerousness and risk of recidivism. Assessing Dangerousness takes the reader through an educated discussion of the different models for assessing dangerousness that have appeared since the 1950s and 1960s up until the present and, most significantly, presents up-to-date approaches to tackling such assessment areas as physical and sexual abuse, sexual assault, and wife assault. Drawing on the research and clinical expertise of prominent

individuals, the text accomplishes its task of describing the importance and the limitations to assessing risk of dangerousness. The volume should appeal to professionals in law, criminal justice, psychology, social work, psychiatry, and many related disciplines." -- David A. Wolfe, University of Western Ontario "Highly recommended." --Family Violence & Sexual Assault Bulletin Book Club

Domestic Violence Margi

Laird McCue 1995 This

comprehensive work examines the world of the abused and the abuser while providing timely information on treatment, education, and prevention. A survey of the history of abuse reveals its roots in ancient laws and religions and its pervasiveness in all societies. Myths, statistics, and the effects of domestic violence on children are

explored, as are the legal cases and court actions that have shaped the movement to end violence in the home. A state-by-state directory of leading agencies and organizations and a review of the programs available to both the victim and the abuser provide immediate referral for those seeking help for themselves or others, and annotated listings of print and nonprint resources direct the reader to additional research sources. This volume provides a wealth of objective information on this very disturbing problem. Domestic Violence: A Reference Handbook is part of ABC-CLIO's award-winning Contemporary World Issues series. Other books in the series deal with the issues such as gun control, rape, gambling, homelessness, wilderness preservation,

and international trade. *Resist Crime Against Women* 2007 Contributed articles presented at Seminar on "Violence against Women" December 6 and 7, 2001 at Women Studies Research Centre, University of Calcutta. *A Child Interviewer's Guide* Wendy Bourg 1999-02-17 The book's coverage of forensic interviewing topics is complete, from deciding which children could benefit from a forensic interview, gathering background information and preparing the room, to posing appropriate questions and using tools, to closing and documenting the interview.

Domestic Violence Jerry L. Johnson 2005 Each title in the Allyn & Bacon Johnson & Grant Casebook Series presents three to four in-depth

cases in a different topic area, prefaced by an introduction to generalist social work practice. Allyn & Bacon Casebook Series for Domestic Violence, First Edition by Jerry Johnson and George Grant provides students with personal and intimate glimpses into the thinking and actions of experienced practitioners working with clients coping with domestic violence. The contributors to this casebook combined many decades of social work experience and teaching to create a one-of-a-kind tool for students to study and analyze how practitioners think about practice. The authors move beyond the belief that practice involves finding "correct" interventions to solve client problems, and instead invite students to review and challenge the

work of others to help them understand what compromises important practice decision with real clients in real practice settings.

A Feminist Manifesto for Education Miriam E.

David 2017-05-23 The idea that gender equality in education has been achieved is now a staple of public debate. As a result, educational policies and practices often do not deal explicitly with gender issues, such as sexual abuse, harassment or violence.

Exaggeration of neoliberalism's successes in creating individual opportunity in education conceals ongoing problems and ignores the continuing need for a fair and equal education for all, regardless of gender or sexuality. In this manifesto for education, Miriam David rejects the notion that gender

equality has been achieved in our age of neoliberalism. She puts the focus back onto issues such as changing patterns of women's and girls' participation in education across the globe, feminist strategies for policy and legal interventions around human rights, and violence against women and children. She discusses waves of feminism linked to school-teaching and pedagogies in higher education as well as an illuminating case study of an international educational programme to challenge gender-related violence. Revealing neoliberal education to be 'misogyny masquerading as metrics', Miriam David argues for changes in the patriarchal rules of the game, including questioning 'gender norms' and stereotypical binaries, and for making

personal, social, health and sexuality education mainstream.

Treating Sexually Abused Children and Their Nonoffending Parents

Esther Deblinger 1996
Empirical evidence increasingly indicates that cognitive-behavioural therapy techniques can be used successfully to treat clients who have been sexually abused. An ideal guide for practitioners of any theoretical orientation, this practical manual has been designed specifically for therapists who want to use this approach to treat sexually abused children and their non-offending parents. The authors illustrate theoretically sound treatment using sample therapist-client dialogue, examples and exercises. Issues explored include: gradual exposure;

modelling; coping skills training; education regarding sexuality, sexual abuse and personal safety skills; and behaviour management skills. Deblinger and Heflin skilfully introduce h
